PROFESSIONAL PROFILE

An experienced full-stack developer and a certified Solutions Architect specialised in building robust and scalable backend systems. I'm looking for a challenging full-time or long-term remote position, ideally at a startup, which can enable me to learn and explore a new path.

EXPERIENCE

Juspay Technologies

Senior Software Development Engineer | Apr 2016 - Jan 2020

- One of the early hires of the fintech startup. I was a lead developer of their main product, Express Checkout that handles millions of payment transactions everyday
- Tasked with implementing new features, improving existing features, code deployments, code reviews, bug fixing, system maintenance and customer support
- Primarily involved in designing and developing scalable backend APIs and other backend features
- Worked across several projects in both backend and frontend development

CERTIFICATION

AWS Certified Solutions Architect – Professional

July 2020

EDUCATION

Bachelor of Technology

SSN College of Engineering, Chennai

2012-2016
